

LOYAL + Sage

Newborn and Infant Photography

Capture the genuine warmth and love between you and your little one through organic, timeless imagery.

With a relaxed 1-2 hour session, there's plenty of time for feeding, changing, and comforting your baby—allowing us to document them just as they are, whether sleeping or awake, without artificial poses or props.

Using both modern digital and vintage film cameras, we preserve your memories with dreamy character, warmth, and beautiful detail.

At-Home Portraits

A relaxed and familiar environment is perfect for capturing real moments with tender emotion. Our organic style photography shines when done in the intimate setting of your family home.
